Profile Info

Passionate about converting mockups into a usable web presence with HTML, JavaScript, and React. Oversaw back-end development using Node.js to maintain website integrity, security, and efficiency. Planned and engineered RESTful web services to manipulate dynamic datasets using SQL and NoSQL.

Able to work independently or as part of a team, I value time and am keen to finish tasks assigned to me ahead of schedule, I am committed to learning and self-development so that I can consistently achieve better results.
